SYNCHRONICITY

The planetarium program “Music of the Spheres” combines art, music and science

By Steven Mark

“You’re traveling through another dimension, a dimension not only of sight and sound, but of mind. A journey into a wondrous land whose boundaries are that of imagination. That’s the signpost up ahead—your next stop, Music of the Spheres!”

No, not “The Twilight Zone,” but that might very well be similar to what you experience if you go to Hokulani Imaginarium today. Windward Community College’s planetarium is presenting a program called “Music of the Spheres,” a musical and visual spectacular.

“We place electronic music in a visually exciting environment at the planetarium, and “Music of the Spheres” is a concert that incorporates music and visuals using Windward Community College’s planetarium.”
